

Adrienne Kaminshine, Systems Administrator at ArcBest

She went to Harding University to get a computer information systems degree in the school of business. She started as a developer at ArcBest for 11 years before transitioning to technical services.

She found her STEM position at ArcBest when they came to interview at Harding for a developer position.

Her favorite high school classes were accounting, all math, pascal (a programming language) her favorite college classes was anything programming related. Her dream job is anything that pushes her to learn and grow.

Advice: Be adaptable. Be willing to work hard. Don't give up. Don't let others hold you back. Be a leader. Be fearless.
